A local appeared in yesterday's Listuage regarding an operation performed upoes Thomas Warner, colored, of Washingtous by Dr. C. C. Owens.
Since the paper was published other facts regarding the case were hought to the reporter which makes the case indeed a most wonderful one.

On the 15th last. Warner, in company with Walker Roed, were out having a time, when they had a few words. In the excitement Reed struck Warner over the head with a small sack containing a half pinh abute of whisky.

At the time it happened only the stud of the blow was felt by Warner, and nothing was thought of the matter at all. It didn't seem to pals him, and he has heen going along doing bis work as usual, never dreaming that he had a fractured skull until Wednesday, when a shood vessel near the piace where he was struck hroke and the blood began flowing forth. At each corner of the cross appeared to be huge balls of living fire of all the colors of the rainbow. The phenomenon lasted for nearly half an hour. The meteorological sharps silence the superstitions by anying it was caused by a peculiar condition of the atmosphere, and the presence of a thin cloud that formed a sort of lens, causing a refraction of the rays of light from the moon.
